

Telescopic Tribunes

SPORCIM

Nesebar – Bulgaria

- Telescopic grandstand systems ensure multipurpose use of spaces thanks to their flexible structures. Telescopic stands are a type of open-close, practical portable grandstand consisting of intertwining modular structure.
- Telescopic stands that can be opened and closed in a very short time can be used remotely or manually.
- Telescopic stands ensures optimum utilisation of the installed area.
- Telescopic stands provides significant income potential with versatile use in accordance with needs.
- We have variable seat options on our telescopic stands. We can install seats in the desired model on the carrier system.
- SPORCIM also has ISO 9001:2015 and ISO 14001:2015 Documents approved by an organization in the EA (European Accreditation) group affiliated to the IAF (International Accreditation Forum).
- As SPORCIM, we have EN 1090-1:2009+A1:2011 "FACTORY PRODUCTION CONTROL CERTIFICATE OF CONFORMITY" approved by the TÜRKAK accredited institution.
- As SPORCIM, we have TS EN ISO 3834-2 "QUALITY REQUIREMENTS FOR MELTING WELDING OF METALLIC MATERIALS" approved by the TÜRKAK accredited institution.
